

Covid Mitigation Guidelines

Given the continued improvement of Covid cases and better conditions in the hospital ICUs, we are excited to recommend the following mitigation steps:

- **Masks** We encourage people to wear masks, but they will not be required.
- **Food & Meals** We have all missed the quality time we share over coffee and shared meals, given the improved conditions, they are once again welcome. Once we can organize volunteers, we will begin coffee hour and perhaps Lenten meals.
- **Other Changes** include longer services that can accommodate liturgy and songs as well as the return of kids' items to the narthex and sanctuary.

These changes will go into effect on Saturday, March 5, 2022.

We hope these changes can remain for a long while. The When and How Team will continue to monitor any changes in our community's Covid Risk; especially as new variants come along. If needed, we will evaluate what mitigation steps may be required if the Covid Risk escalates.

These measures were approved by the church council on February 28, 2022.
